# The company

## *We have been feeling at home in Eurasia*

for more than 25 years now! As an owner-managed enterprise, we are able to respond to all market requirements as well as your specifications and to the demands of your customers.

We not only know the habits and common practices of the European and Asian market very well, but also implement a sustainable company policy in a consistent way. Our passion is not short-term economic success, but your long-term satisfaction.

We, as the LANDO group draw particular attention to full-service support. The members of all our teams speak the national language of the transport areas served and therefore understand the drivers, customers, suppliers and recipients. With our many years of experience and the great understanding for the typical features of the respective country, we guarantee you an efficiently organised transport process – 24 hours, 7 days a week.

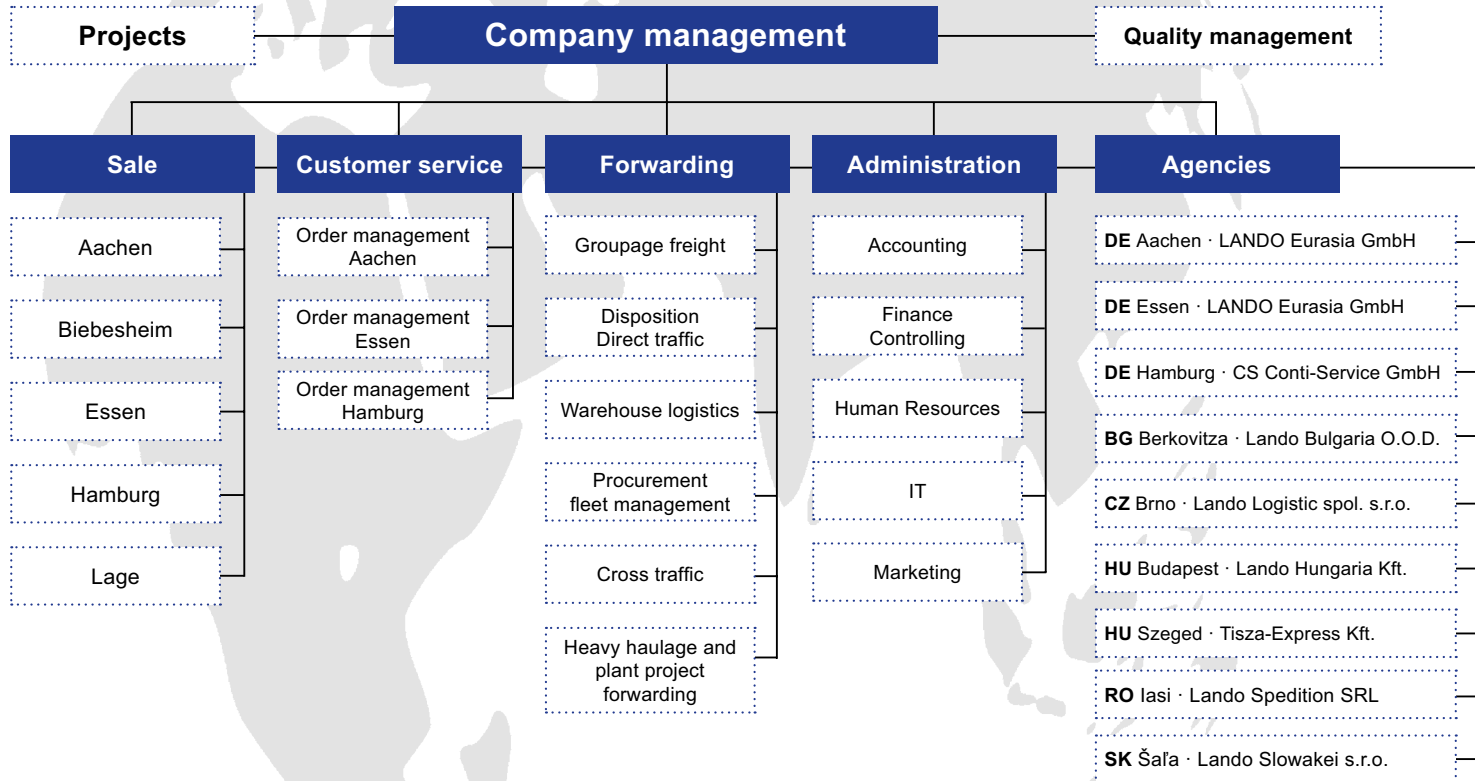

Via our foreign subsidiaries, associated and cooperation companies we are also locally available with competent contact partners to provide services whenever and wherever needed.

# Network

# Organisation of the LANDO group

# Transport by land

## Secure presentation of goods through qualified procurement

The vehicles used for you have been registered with foreign and associated companies as well as permanent haulage contractors. The disposition of your bookings through us is based on various ways of cargo stowage procurement.

- *Own equipment registered with associated and foreign companies*
- *Exclusive charter trucks*
- *Free and verified haulage contractors*

*As a DIN EN ISO 9001:2008 certified company, we provide you with reliable and at the same time flexible purchasing possibilities of capacities; also, we are ready to take into consideration the current market prices.*

# Quality and security

All suppliers and haulage contractors – including our foreign subsidiaries and associated companies – have been selected on the basis of a strict way of procedure defined in the QM-system. With the aid of IT-access rightsmissing release or exclusion of a freight carrier automatically causes that the use of an unqualified or negatively evaluated freight carrier, simply for technical reasons, is not possible.

The success of these measures is also confirmed by the claim rates having been **low for many years**. Last year LANDO, in this process, with about 50 staff members in Germany, handled approx. 2000 positions monthly in freight transport from and to Europe and Asia (foreign subsidiaries excluded).

## You demand

- improvement of the delivery service
- strengthening of customer orientation
- securing long-term competitiveness
- avoiding damages
- Red-Flag-Management

## We offer

- long years of experience in transport of hazardous goods for the chemical industry (ADR)
- certification according to DIN EN ISO 9001:2008
- SQAS assessed company no. 30002
- 2 EU security advisors (ADR)
- daily ADR departures
- strict selection and support at cargo stowage procurement resulting in constantly low damage rates
- constructive and pro-active handling of the subjects cargo securing, protective equipment, on-time delivery or Red-Flag Management

...meaning for us just a day-to-day business!

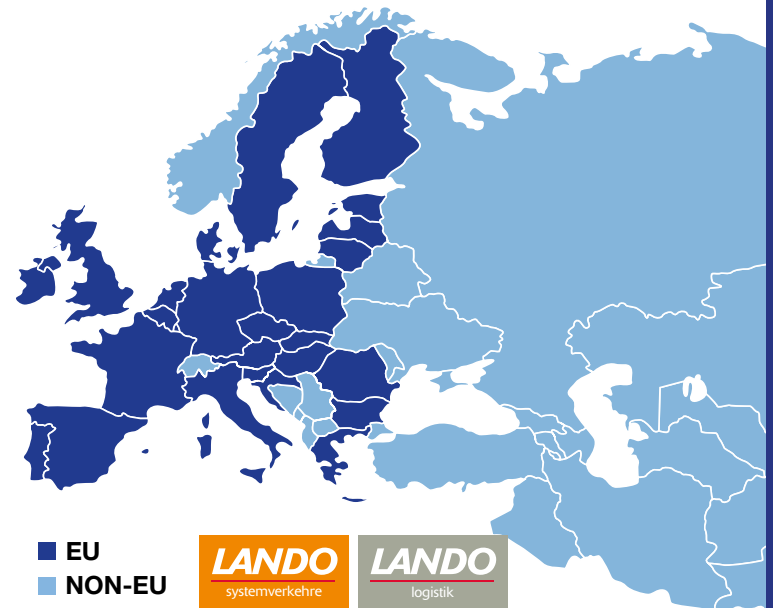

# Groupage freight, system traffic, logistics

## On tour across Europe and Asia

LANDO group offers on a regular basis European groupage freight transport via hubs in Hamburg, Aachen, Essen, and Budapest with connecting traffic in the direction to Europe and Asia

The field of contract logistics is covered in cooperation with our affiliate Hammer.

# High Value

## Customized transport solutions to be provided for daily delivery of your sensitive products without detours

Time-critical and theft-prone consignments are subject to highest safety standards. Fully transparent processes reliably prevent consignments from damages, unauthorized access and loss. This is evidenced by the certification according to TAPA FSR Kat. A, TSR Level 1, AEO-Status and we are certified as a Regulated Agent.

The quality of communication is guaranteed by your personal contact partner with permanent availability in 24/7 and 365 days a year. High Value Transports are organized in cooperation with our affiliate Time Shuttle GmbH

- 2 drivers
- automatic documentation of each phase
- own security department
- escort by accredited security service
- personalised pre-alert
- satellite-based route planning
- safe and secured parking
- security warehousing according to TAPA FSR Kat. A
- security trailer and traction engines
- track & trace (App. Version)
- transport monitoring by GPS and GSM

# Heavy-lift and industrial plant transport

In this supreme discipline, we above all master the high and manifold requirements at transports and projects from/to Europe, Russia and Asia. Besides the pure implementation of transports, we on request also offer you additional complex services. Our competence is based on long years experience and grown contacts to industrial, private and official contact partners. We also want you to benefit from our comprehensive service from one source. LANDO Eurasia GmbH Schwerlast- und Speditionsgesellschaft is able to coordinate the implementation of all work involved.

- *disassembly and reassembly of machines and plants*
- *engineering*
- *provision of personnel and special equipment*

We can offer you a flexible and ultramodern fleet of vehicles for any kind of use.

## Convince yourself!

- *heavy haulage project logistics*
- *national and international handling of overlapping transport modes*
- *special transports by land, sea, rail and air*

LANDO Eurasia GmbH Schwerlast- und Speditionsgesellschaft on request also offers you additional services, which are often inseparably connected to transport:

- *consultancy*
- *packaging and dispatch planning*
- *container stowage*
- *country-specific approval services*
- *route surveys, site visits*
- *static calculation*
- *accompanying of transports and traffic-guiding measures*
- *crane and lifting services*
